as an outstanding state resource water, the board must make available to the public a written summary of the information considered by the board under subsections **(f) and (g)**, ~~and (h)~~, including the board's conclusions concerning that information.

~~(j)~~ **(i)** The commissioner shall present a summary of the comments received from the comment period and information that supports a water body designation as an outstanding state resource water to the environmental quality service council not later than one hundred twenty (120) days after the rule regarding the designation is finally adopted by the board.

~~(k)~~ **(j)** Notwithstanding any other provision of this section, the designation of an outstanding state resource water in effect on January 1, 2000, remains in effect.

~~(l)~~ **(k)** For a water body designated as an outstanding state resource water, the board shall provide by rule procedures that will:

- (1) prevent degradation; and
- (2) allow for increases and additions in pollutant loadings from an existing or new discharge if:
 - (A) there will be an overall improvement in water quality for the outstanding state resource water as described in this section; and
 - (B) the applicable requirements of 327 IAC 2-1-2(1) and 327 IAC 2-1-2(2) and 327 IAC 2-1.5-4(a) and 327 IAC 2-1.5-4(b) are met.

a short term, temporary storm water discharge to an outstanding national resource water or to an outstanding state resource water may be permitted under an NPDES general permit if the commissioner determines that the discharge will not significantly lower the water quality downstream of the discharge.

(q) Subsection (r) applies to an application for:

- (1) an NPDES permit subject to IC 13-15-4-1(a)(2)(B), IC 13-15-4-1(a)(3)(B), or IC 13-15-4-1(a)(4); or

(r) For purposes of an antidegradation review with respect to an application referred to in subsection (q), the applicant shall demonstrate at the time the application is submitted to the department, and the commissioner shall review:

- (1) an analysis of alternatives to the proposed discharge; and
- (2) subject to subsection (s), social or economic factors indicating the importance of the proposed discharge if alternatives to the proposed discharge are not practicable.

(s) Subject to subsection (t), the commissioner shall consider the following factors in determining whether a proposed discharge is necessary to accommodate important economic or social development in the area in which the waters are located under antidegradation standards and implementation procedures:

- (1) Creation, expansion, or maintenance of employment.
- (2) The unemployment rate.
- (3) The median household income.
- (4) The number of households below the poverty level.
- (5) Community housing needs.
- (6) Change in population.
- (7) The impact on the community tax base.
- (8) Provision of fire departments, schools, infrastructure, and other necessary public services.
- (9) Correction of a public health, safety, or environmental problem.
- (10) Production of goods and services that protect, enhance, or improve the overall quality of life and related research and development.
- (11) The impact on the quality of life for residents in the area.
- (12) The impact on the fishing, recreation, and tourism industries.

**C
o
p
y**

- (13) The impact on threatened and endangered species.
- (14) The impact on economic competitiveness.
- (15) Demonstration by the permit applicant that the factors identified and reviewed under subdivisions (1) through (14) are necessary to accommodate important social or economic development despite the proposed significant lowering of water quality.
- (16) Inclusion by the applicant of additional factors that may enhance the social or economic importance associated with the proposed discharge, such as an approval that:
 - (A) recognizes social or economic importance; and
 - (B) is given to the applicant by:
 - (i) a legislative body; or
 - (ii) other government officials.
- (17) Any other action or recommendation relevant to the antidegradation demonstration made by a:
 - (A) state;
 - (B) county;
 - (C) township; or
 - (D) municipality;
 potentially affected by the proposed discharge.
- (18) Any other action or recommendation relevant to the antidegradation demonstration received during the public participation process.
- (19) Any other factors that the commissioner:
 - (A) finds relevant; or
 - (B) is required to consider under the Clean Water Act.
- (t) In determining whether a proposed discharge is necessary to accommodate important economic or social development in the area in which the waters are located under antidegradation standards and implementation procedures, the commissioner:
 - (1) must give substantial weight to any applicable determinations by governmental entities; and
 - (2) may rely on consideration of any one (1) or a combination of the factors listed in subsection (s).
- (u) Each exceptional use water (as defined in IC 13-11-2-72.5, before its repeal) designated by the board before June 1, 2009, becomes an outstanding state resource water on June 1, 2009, by operation of law.
